Professional Objective

Aspiring IT professional with a strong foundation in web and mobile development, seeking to contribute through innovative solutions. Skilled in full-stack development and passionate about building scalable, user-friendly applications using modern technologies.

Education

- **B.Sc. in Information Technology** – Patkar Varde College, Mumbai   *July 2022 – March 2025 (Pursuing)*

- **HSC (Science)** – Dalmia College   *March 2022 — 62%*

- **SSC** – St. Francis High School   *March 2020 — 75%*

Technical Summary

- Experienced in developing full-stack mobile and web applications using **React Native**, **Node.js**, **Express**, and **MongoDB**.

- Proficient in building user authentication, **REST APIs**, and responsive **UI/UX** designs.

- Knowledge of data structures, OOP principles, and modern version control systems like **Git**.

Projects

- **PenPaperDiary App**
  Productivity and learning management app with task management, diary logs, calendar, and secure user login. Developed with **React Native (Expo)**, **Node.js**, **Express**, and **MongoDB**. Features JWT authentication, profile management, custom components, and a **lock-enabled diary tab** to secure private entries.

- **StyleSense App**
  Fashion and outfit recommendation app with weather-based suggestions, virtual try-on, and community features. Built using **React Native (Expo)**. Integrated **AI suggestions**, theme support, and wardrobe tracking.

- **Guess the Number Game App**
  Developed a **Kotlin**-based guessing game in **Android Studio** with real-time feedback, input validation, and user-friendly design. Emphasized clean logic and error handling.

Key Skills

- **Languages:** C, C++, Python, Java,JavaScript

- **Web:** HTML, CSS, React,Node.js, Express

- **Mobile:** React Native (Expo), Kotlin

- **Database:**MongoDB, MySQL

- **Tools:** Git, GitHub,Android Studio, Visual Studio Code

- **Concepts:** OOP, Data Structures, Operating Systems, Embedded Systems

Certifications
